- Round Pens & Covers
- Metal Buildings

MAKE YOUR DREAMS A REALITY

For optimal lighting and ventilation, this Raised Center Aisle barn is a perfect choice. This barn features a convenient tack room that is naturally lit with windows on two sides.

This semi-custom Raised Center Aisle barn coordinates with the owner's home. Modular walls are combined with an attractive tile roof reflecting the individuality of the property.

Good things come in small packages. This space saving Shedrow barn features a generous overhang that provides protection from sun and rain.

For warmer climates, this Gable Roof barn features large open breezeway ends and grilled window panels that allow maximum airflow with a covering that provides protection from sun and rain.

Your horses are more than a commitment, they are a lifestyle. Pride in your way of life is reflected in the way you care for your horses and the type of environment you provide for them to live. Among the benefits of a well-planned barn designed by FCP are lower maintenance costs and an increase in the value of your property. Our goal is simple, to build barns where esthetics meet convenience and where your quality of life is enhanced.

GABLE ROOF BARN

SOLUTIONS

Your equestrian facility can reflect your personal style and needs. FCP specializes in both standard and custom designs from simple shelters to grand equestrian facilities. FCP offers the greatest selection of design, material and accessory options to provide you with exactly the right solution. You can count on FCP to design and build the most efficient and cost-effective equine housing available today.

Hay Storage

OPTIONS

FCP offers a wide variety of material, accessory and color options to make your structure truly your own. With FCP you will find more options under one roof and be assured that only top quality materials are used.

Choose from a number of innovative construction options:

- DuraBarn™ – Plastic Lumber – Virtually maintenance free, look of wood and environmentally responsible
- TimberLine Barn™- Tongue & Groove Stack Wall – The warmth and beauty of natural wood
- Titan Barn™ – Solid Wall – Kick-proof and the strength of steel
- Mare Barn – Made with Allied Gatorshield® corrosion barrier tubing – Tested best over all others

CORRAL

DETAILS

Knowledgeable engineering and unwillingness to compromise on quality are keys to our success. We make sure all those little extras are covered so that there are no surprises during the construction phase. FCP is more than just a designer or materials supplier; we also offer full contractor services. Our attention to detail is tangible in the precision engineering and top-quality materials that we provide.

At FCP we design and build more than just barns, we build homes for horses. Our mission is to provide secure protection and comfort for your horses with well-planned designs and building techniques.

Continuous innovation and unmatched structural designs are the cornerstones of FCP's success.

You are making an important investment in your horses and property. For over twenty-two years FCP has been building equestrian facilities for horse enthusiasts with an unmatched record of structural integrity and customer service.

FCP, Inc. is owned and operated by a California Licensed Contractor assuring that your project is engineered and installed to the latest building codes.

FCP takes pride in the quality of our buildings and products. We offer you a complete line of the finest equine structures and accessories available.
